“I have known the Rev. Maria D’Andrea for more than 25 years having made her acquaintance when I was still editing the *Ghost Trackers Newsletter* for my group the Ghost Research Society. Rev. D’Andrea was kind enough to submit several very thought-provoking articles on a variety of interesting topics. Her intuitive instinct into the paranormal and psychic was always an added plus to each and every issue she contributed to! She continues to contribute to the paranormal community through her own workshops, seminars and her latest book. She is a leading lady in the spiritual field of the 21st century!”
